City Guidelines

Posting Prayer

Please keep the following guidelines in mind before posting a prayer:

1. Speak for yourself, unless asked by someone else to post on their behalf. (See #3)
2. Before posting any personal information ask, "Is this suitable for public knowledge?"
3. If posting on behalf of someone else:
   - Respect their privacy.
   - Do not post anything more than explicitly asked to post.
4. Discern whether your prayer request is better posted in a community group vs. the church group.
   - We do not believe prayers need to be "worthy" by any means to go on the church prayer wall, but keep in mind that church wall posts **should be kept succinct** due to the volume of prayers on the wall. More detailed prayer request can be posted on your community group page.
   - If the City Administrators feel a request should be on a group instead of the church, one will notify you.
5. Posting a prayer is not for solicitation purposes.
6. Prayer posts are not where you list needs, although “needs” can be prayed for, they are better posted as a Need.
7. If you have an issue or disagreement with somebody, posting a prayer is not how to vent your frustration, or to inform the church of the situation. Talk to that individual personally, or if need be contact your community group leader and/or one of the Pastor/Elders.
8. Posting a prayer is never to be used for gossip, if you see a prayer request containing gossip please let one of the Pastor/Elders know.

King's Chapel leadership reserves the right to remove any prayer requests that do not meet these guidelines.
